Stuart Chase Speaker At N. T. L. Open Meeting Here Last Night

Stuart Chase, economist and author, addressing what he called "intelligent laymen who are distressed about the waste and the danger involved in disagreement at every stage, from a family row to the cold war," said that he believed that if "pressures" surrounding people were relaxed, "temper might even out."

He addressed an open meeting held last night at Bingham Gym where he gave a talk on "Roads to Agreement." The people of the community were invited by the National Training Laboratory in Group Development to share in the opportunity of hearing this famous lecturer.

"Admonitions, preachments, optimistic slogans are not enough," he told the delegates. "We need more light on specific techniques, procedures, ways of ordering our minds, ways to keep our egos in check, ways to live together in a shrinking world."

International conferences could be greatly helped by members being more familiar with the culture concepts and semantics of each country, he said.

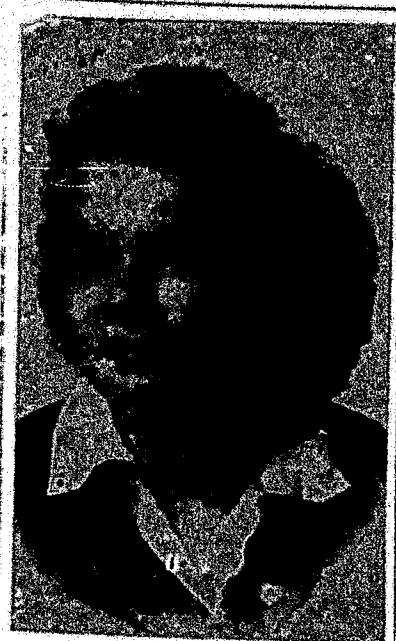

Stuart Chase was born in Somersworth, New Hampshire. His ancestors on both sides have lived in New England for generations. Once a year he tours the country, lecturing, mostly to teachers' organizations and college students. He has covered a good part of North America on these tours.

His remarks during the evening were based on a book that he is writing and from which the title of his talk was taken. An extension of his last book, "The Proper Study of Mankind," "Roads to Agreement," will explore the accredited techniques which will help us get on better in the atomic age. "Needless to say, the individual and the group must want to find agreement, or the best tools in the world are useless." He made it clear that he has no pat answer on how to stop the cold war but when he looks around he finds there are lots of helpful techniques to aid individuals solve their personal problems, or get on better in the next meeting they attend.

"There is a great deal of conflict generated, not by issues, but something else," he stated, "and everyone needs frustration outlets. People are frustrated by other causes and often come to the conference table spoiling for a fight. A high energy society tends to generate frustrations on the job. In the subway, all around the map. People of different cultures are brought up from the cradle to be unreasonably suspicious of one another. This has always been true, but as the planet shrinks, it becomes more serious."

Chase reported many examples of excellent group work. Among those cited were the Quaker business meeting, which has been run with unanimous consensus for 200 years; UNESCO which is sponsoring studies on how to improve international relations; techniques used on some boards of directors meetings, for example, Standard Oil of New Jersey; the way the Lillenthal-Acheson plan was drafted; how TVA handles unions, farm groups and people displaced by the reservoirs, in fact, he states, "The whole TVA population is a fine demonstration of good group techniques." In addition he mentioned the training program of the State Department which is training its career in the culture concept of anthropology, "a wonderful tool," he says, "for judging foreigners."

There is also the project of the National Planning Association, analyzing conditions of industrial peace in 20 companies, where relations are good. Any businessman can get help if he is interested. He urged the use of techniques beginning to form around the new discipline of "group dynamics." The philosophy which is the foundation of the laboratory "These techniques can be used especially for small group meetings, school committees, boards of directors, labor unions, international conferences, possibly even to revolutionize classroom procedures in schools and colleges," he said. "They will not be helpful to communists, have all the answers."

Miss Joyce E. Murphy

MURPHY-STEARN'S ENGAGEMENT

Mr. and Mrs. R. Glenn Murphy have announced the engagement of their daughter Joyce to Robert G. Stearns. Miss Murphy was graduated from Gould Academy in 1948 and has since been employed by the Hanover Dowel Company. Mr. Stearns was educated at Gould Academy and is engaged in dairy farming with his father, Elmer J. Stearns, at Northwest Bethel. The wedding will take place on Aug. 5.

TWO HAWAIIAN RESIDENTS AT TRAINING LABORATORY

Participating in the three week training session of the National Training Laboratory in Group Development which is meeting at Gould Academy, are Miss Allison MacBride and Mrs. Oel MacBride, both of Hawaii. Miss MacBride, originally a resident of New York State, has lived in Honolulu for six years and is Educational Director of the Territorial Health Department. Miss MacBride, an American of Japanese ancestry, is a "kamaaina" or native of the islands. She is in Bethel as a representative of the Hawaiian Department of Public Instruction, in which she serves as the Assistant Director of Kindergarten.

Both delegates, who completed the 2000 mile trip from Hawaii to Bethel in approximately 21 hours, hours of flying time, are greatly impressed with the beauty of the trees and hills of Bethel and the surrounding country, which is unlike anything they have seen in the islands. They find the soft colored wildflowers of Maine a pleasant contrast to the exotically colored blossoming trees of Hawaii. They also enjoy the feeling of spaciousness they have had since arriving on the continent, and the opportunity of taking numerous short trips by automobile. Although their trip by automobile is not necessary for them to travel from one island to another by air, the limited space does not permit extensive automobile travel.

As administrators in education, both Miss MacBride and Mrs. MacBride are engaged in training programs for nurses, parents and children. They plan to use their laboratory training in the skills and understandings of democratic leadership to extend and further of the groups with which they work.

The Mount-Allen Post, American Legion, and Auxiliary wish to express their sincere thanks to all the organizations and individuals who so kindly gave of their services and financial support to make the July 4th children's night such a success. We hope that all of you shared with us the personal satisfaction of seeing the children enjoy themselves in a safe and safe celebration of the national holiday. The wholehearted cooperation of everyone toward that end is greatly appreciated.

Roderick S. McMillin, Commander Mount-Allen Post, A. L. No. 81

TIME OF RURAL MAIL DELIVERIES CHANGED

On Wednesday morning of this week a change in time of departure of rural mails, originating at the Bethel Post Office, went into effect.

The star route to Sunday River, Harlow and Rumford Point leaves at 9 A. M., returning at noon. On route 1 the trip to West Greenwood and Albany originally route 3 starts at 9, followed by South Bethel, East Bethel Middle Intervale. Final return to the post office is scheduled at 1:30.

Mail leaves the office on route 2 to Mason at 9 a. m., followed by the Gilead-Northwest Bethel trip, returning to Bethel about 1 o'clock. With a large part of the first class mail arriving here in the early morning, the post office department believes that in general the earlier delivery will be more satisfactory.

B. A. C. TO OPPOSE OLDSTERS IN DONKEY GAME, JULY 23

On Sunday, July 23, the people of Bethel will have the chance to see a game of "Donkey Baseball". The Bethel A. C. will be opposed by some of the best ball players that they ever produced, even though they may not be as young as they used to be.

The Old-Timers or "Rockets" as they will be called, still feel they can beat some of the younger fellows at "Donkey Baseball". It will feature laughs by the dozen, as some donkeys do not always go where they are supposed to go and others might not go at all.

The game has promises of being the highlight of any game this year. Don't forget to save Sunday, July 23, to see the Donkey Baseball game at Thurston Field in Bethel. Bring the youngsters for they will enjoy it too.

Mrs. Kenwood Hutchinson

HUTCHINSON-RICHARDSON

Miss Nedra Richardson of Hanover and Kenwood Hutchinson of Biddeford were married at Mexico at 3 o'clock Friday evening by the Rev. Kenneth Hatch. The couple were attended by the bride's sister and husband, Mr. and Mrs. Truman Thurston of Rumford Corner.

The bride was attired in pink organza and carried a bouquet of white rosebuds. The wedding was attended by members of the immediate families and a few close friends.

Mrs. Hutchinson is the daughter of Mr. and Mrs. Ralph Richardson of Hanover. She was graduated from Gould Academy in 1947 and since that time has been employed in the Bethel branch of the Casco Bank & Trust Co.

Mr. Hutchinson is the son of Mr. and Mrs. Alton F. Hutchinson of Biddeford. Since graduating from Mexico High School in 1946 he has worked at Stanley Roberts' poultry farm at North Bethel.

The wedding was followed by a reception at the home of Mr. and Mrs. Alton F. Hutchinson. Those present were Mr. and Mrs. Ralph Richardson, Mr. and Mrs. Stanley Roberts, Mr. and Mrs. William Kozz, Mr. and Mrs. Thomas Welch, Mr. and Mrs. Edward Richardson, Mr. and Mrs. Truman Thurston, Mrs. Thomas Harkness, Mrs. Frank Hutchinson, Miss Linda Richardson, Mr. and Mrs. Alton F. About 600 children were happily entertained at the Bethel Fourth of July celebration held Tuesday on the Common. Over 100 cars surrounded the area with many grownups in them enjoying watching the boys and girls at their fun.

The Norway-Paris band led the Horribles Parade at 6 p. m. The judges (anonymous) awarded prizes to Jane Greig for the most horrible and Judy Van for the most appropriate. Richard, Susan, and Stephen Saunders dressed as three wild Indians, were awarded the third prize.

Twenty-four sixth, seventh and eighth grade boys and girls held a race to see who could eat their blueberry pie first. Top honors with two theatre tickets each as the prizes went to Sammy Stone and Judy Freeman, while runners-up Sandra Myers and David Merrick received boxes of candy.

Douglas Rice was first to climb the greased pole, so took the dollar bill from the top. Judy Van, Dana Bean and others that followed received boxes of candy as their awards.

Gene Van was present with two of his thoroughbred registered beagle pups and Sheila Nary, as winner of the bean guessing contest, was given her choice of a puppy.

The band gave a concert which was greatly enjoyed, causing several to reminisce and wish we had a Bethel Band again and could have more concerts.

Refreshments of sandwiches, cake, ice cream, punch, and watermelon were served to everyone with plenty for all.

The boys and girls were divided into age groups for relays and contests with prizes for all teams. Dancing followed in the Community Room and was well attended. Addison Saunders and Sarah Dorion, John Willard and Barbara Jodrey won watermelons at an elimination dance.

At 10 o'clock all went home, weary but all saying what a grand time they had had. "Probably the best reward one could ask for was to have a bunch of 11 and 12 year old boys say 'jee, this is lots more fun than fireworks'."

Our heartfelt thanks to Roderick S. McMillin and the Legion boys who were the instigators of this affair and the many others who gave so generously of time, money and materials.

Some of the many others who worked were: Francis Nary, Mrs. Blaine, Ed Noyes, Mrs. Haber, Alton Hutchinson, Ray Foster, Fran Borden, Larry Sanborn, Lila Gaudin, Robert Hattfield, Mrs. Frances Bennett, Mrs. Alma Meserve, Mrs. Selma Chapman, Mrs. Hilda Dunlap, Mrs. Ida Forbes, Mrs. Harriett Noyes, Mrs. Frances Gaudin, Mrs. Ethel Baker, Mrs. Blane, Mrs. Hazel Wheeler, Mrs. Maxine Brown, the Moses Allen and Isabel Bennett. VIRGINIA BOWS TO B. A. C. 5-2, IN TWO-LIGHT CONTEST

Last Thursday evening the Bethel Athletic Club journeyed to Virginia to incur a 5 to 2 decision over the hometown pastimers.

The Virginia aggregation scored a quick run in the initial frame on a pass to R. Brown, followed by hits by Martin and Kozal. After Cote struck out to retire the side, the local team did not threaten again until they scored on a run in the final frame.

The Bethel A. C. tied the score in the second on a double by Al Smith and H. Berry's single. The tie-breaking tally was scored in the next frame by Archie Young after singling, moving to third as Larry Sanders singled, and scored as first baseman Kozal erred in attempting to retire Pete Baker. The eventual winning run was scored in the next inning when, with two down, Brown got an infield hit, stole second, and scored on Stanley Merrill's sharp single to right.

The outstanding play afield occurred in the fourth when, after Cote reached on Sanders' error at short, Hallie bounced one to Berry's left at third, which "H" grabbed, pegged to Burt Rolfe at second for one out, and Burt, in turn, flipped the ball to first baseman Smith for a double play.

B. A. C. HAS BIG INNING TO BETHEL HUMPHORD POINT, 13-12

The Bethel Athletic Club won their sixth game in seven Oxford County League starts, by squeaking by Humphord Point, 13-12, at Thurston Field, Sunday afternoon.

Behind 10-4 at the end of 7 frames, the A. C. nine took advantage of the enemy hurler's generosity and accepted five bases on balls, put together with four hits and a fielder's choice, to counter nine times before Burt Rolfe was called as he tried to steal home.

"Cag" Bennett and Burt Rolfe knocked balls over the fence for home runs and Larry Sanders belted a drive into left field that B. Roberts had difficulty capturing in foul territory, while Larry circled the bases. "H" Berry, Archie Young, and Sanders each belted a double to add the cause.

The fielding feature of the day came in the first inning when P. Robbins drove a liner deep to left field which Burt Rolfe trapped against the fence to snare for the out, and then throw to Young at second base to double up B. Roberts who had walked to open the game.

On Sunday, July 9, the A. C. plays at Locke Mills and next Thursday evening they tackle the Virginia team at Thurston Field.

SUMMERIZE YOUR FURNACE
Have your furnace SUMMERIZED - cleaned, inspected and repaired. And do it NOW... if you want to reduce summer furnace damage. Yes, we mean SUMMER damage, because that is when soot and water - basement dampness and moisture from spring rains - combine to form sulfuric acid. This acid corrodes and ruins your furnace and its smoke pipe.
NOW we can put your furnace in condition to combat summer-time rust and corrosion. NOW our special low rates are in effect. Call us right away!

THE MIDDLES By Bob Karp

CHARLES DREW, FRYEBURG FIRST FARMER TO FINISH HAYING IN 1950

On June 25, Charles Drew of West Fryeburg had all his hay cut and in the barn, and his pasture plots clipped and the surplus growth stored for winter roughage. Mr. Drew operates a one-man dairy unit in the Town of Fryeburg - milks around 12 to 15 cows. Mr. Drew's roughage, cut at an early age of maturity, will afford a very palatable and highly nutritious roughage for his livestock next winter, and his second crop of ladino clover has an excellent start already which can be used later in the season for supplemental pasture during July or August, or harvested for a second cutting of hay.

ATOMIC BOOKLET TO BE READY ABOUT AUGUST 1

A description of just what happens when an atomic bomb explodes will soon be available to the public in an official Government document now being printed at the Government Printing Office. Entitled "The Effects of Atomic Weapons," the book will be released about August 1, and advance orders may now be placed with the Superintendent of Documents, Washington 25, D. C., at \$125 per copy. All proceeds from the sale go to the Government.

Of primary interest to persons engaged in civilian defense and the building trades, the book contains previously unpublished details on atomic explosions. The damage caused by the atomic bombs in Japan is examined with estimates of probable effects on American cities. The types of buildings which best withstand the shock and the hazards of various radiations are described and illustrated.

The book was prepared by the Atomic Energy Commission from non-confidential scientific and technical information. It is the most informative and authoritative book on atomic weapons which can be made public and is the most significant document to be published since the Smyth Report.

NEW MILL SITE PROGRESSING AT LOCKE MILLS

"EASY DOES IT"

WHEN MAKING JELLY or jam, it's best to work with about two quarts of fruit or juice at one time. Working with more will prolong cooking time and cause darkened jellies which often lack flavor.

Use a broad bottomed kettle which gives plenty of room for boiling when making jelly. Once the juice has reached the boiling point, let it boil rapidly until the "jelling" stage is reached, that is, when two drops of syrup run together at the edge of the spoon and sheet off.

Jelly glasses should not be poured too full or it is impossible to seal them perfectly.

Always use fresh paraffin since old paraffin may have foreign matter in it, or may have a musty odor for being used and stored.

RECIPE OF THE WEEK

Current-Rhubarb Jelly
1 quart currants
1 quart cut rhubarb
1 cup sugar for each cup juice

Crush currants as they heat. When juice flows freely, pour into a jelly bag to drain. Add 1/2 cup water to the rhubarb, heat until soft, and then pour in jelly bag to drain. Combine the juices and bring to a boil with an equal amount of sugar. Boil rapidly until two drops of syrup sheet from the edge of a spoon. Pour and seal.

Jelly bags may be made of muslin or several thicknesses of cheese cloth. Let the juice drip without squeezing the pulp and you'll have nice, clear jelly.

Wash a jelly bag as soon as you've finished with it. Pouring hot water through it will remove much of the fruit stain. Launder and store carefully for use another time.

Second extractions of juice for jelly making may be made from fruit rich in pectin such as apples, grapes, currants and quinces. Return fruit to kettle, barely cover with water and heat gradually. After the juice simmers for 20 minutes, return to jelly bag.

Second extractions of juice will make cloudy jelly unless the juice is strained several times through several thicknesses of cloth.

Some jellies set slowly, requiring as long as a week to become firm.

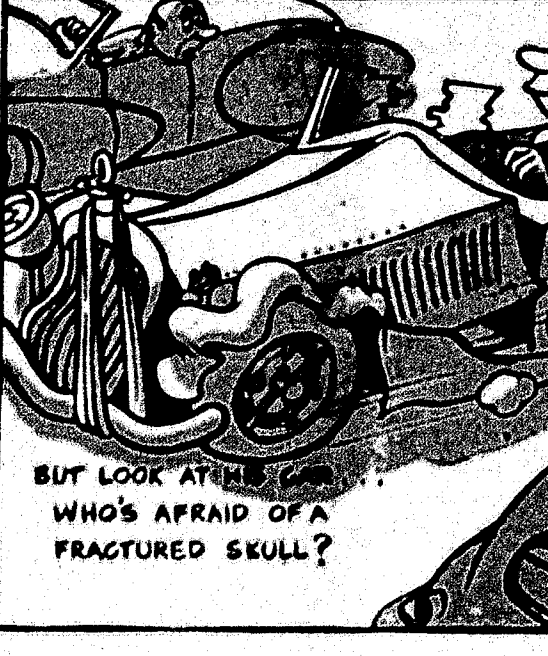

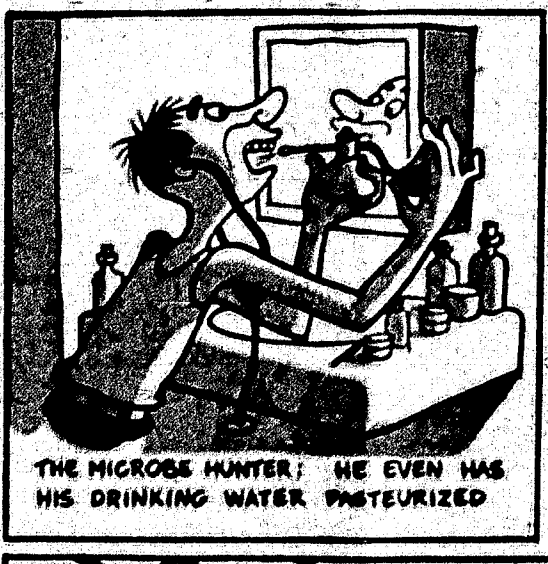

Future years. These will not cost anything in cash outlay right now but they will involve spending at least \$1,500,000,000 before they are finished.

Revenues these grants of contract authority do not show up right away as spending items in the budget, the groups constantly pressure.

ing Congress for public spending, pounce upon them as a pained way of putting over new spending projects. Congress itself has frequently replaced part or all of a requested appropriation with such grants in order to show a budget cut.

Another "foot-in-the-door" device for mortgaging Uncle Sam's tax-fed income is the growing practice of launching new public works projects with small down payments. The 1951 Budget recommends a variety of new public works which would require down payment of \$150,000,000. In later years, however, these would result in additional expenditures of \$100,000,000. The largest of these programs, the St. Lawrence Seaway Project, calls for an initial deposit of only \$4,000,000 in 1951 but at least \$250,000,000 more to give Uncle Sam a clear title.

Already a large part of the Federal budget is going to meet expenditures authorized in earlier budgets. Of the \$22,400,000,000 budget proposed for spending in 1951, about \$12,100,000,000 or 53 per cent will go for obligations incurred in 1950 or earlier.

SUCCESSFUL PARENTHOOD

MOTHERS ARE apt to suppose that teaching a baby to use a spoon is the first step in self feeding. But prior to acquiring this skill, baby has to learn to chew. For sucking may be an instinct, but what to do with his teeth is a mystery baby spends a lot of time happily solving. Actually, some children seem to object to chewing and will hold solid pieces of food in the mouth for hours, or spit them out at first contact.

Your best ally in this chewing game are baby's fingers—not only will he chew on them, but if he is allowed to pick up small bits of food with his fingers and put them in his mouth he will chew experimentally. (If you put the pieces into his mouth he is more apt to spit them out.)

Dr. Dorothy Whipple, author of "Our American Babies" suggests that you let baby begin his meal with little dabs of cold cereal on his plate which he can pick up and put into his mouth himself. He is hungry then, and while you finish preparing the rest of his dinner he can be giving himself a chewing lesson.

Later on let him have some of his vegetables cooked in strips so that he can hold them in his fingers and bite off a piece. This practice should be kept up throughout early childhood for young children, as well as babies, need a chance at

ECONOMIC HIGHLIGHTS

Happenings That Affect the Future of Every Individual—National and International Problems Inseparable from Local Welfare

The American Communists, have gone underground with a vengeance, are attempting to weaken the nation through propaganda, and are training spies whose job is to bore inside the Government and to steal our top military secrets—particularly those concerning atomic weapons, jet planes, and plans for the national defense in event of war. That, in essence, is what FBI Director J. Edgar Hoover recently told a Senate committee.

Just how large is this party whose loyalty belongs to a foreign power? According to Mr. Hoover, there are 54,774 actual Communist party members within the U. S. at the present time, most of whom are in the concentrated centers of population. New York State alone contains about half of them. It is likely that for every party member, there are 10 sympathizers who are ready, willing and able to do the party's work. So, he said, "There is a potential fifth column of 547,740 people dedicated to this philosophy."

Since the trial and conviction of the 11 members of the party's Executive Board, major organizational changes have been effected. Mr. Hoover continued. The trend has been toward decentralization in order to eliminate the dangers that arise when large numbers congregate, the number of Communist Party clubs has been almost tripled. No membership cards were issued last year, and the maintenance of membership records has been discontinued. A courier system has been established to protect confidential communications. Secret printing plants have been set up. Leaders are being selected for the underground. A thorough and elaborate system has been devised for making certain that each member is loyal to Communism and will remain so.

According to Mr. Hoover, the party has endeavored to exploit youths, veterans, civil rights, foreign nationality, the press, radio, television, the motion picture industry, educational, political, women, and labor groups. Forty-eight per cent of the membership party is in the basic industries of this country. Communist efforts toward infiltration have been intensified in basic industries vital to our security, such as steel, heavy machinery, mining, communications, transportation, the electrical industry and the maritime industry. The Communists have

Nobody's Business

A most pleasing event was the program arranged for the young people on July 4. It is safe to say that few of the children felt the lack of fireworks, while many of the older people enjoyed the quiet day. The ball game featuring our popular local teams was big attraction in the afternoon, and altogether the day's activities were a pleasing contrast to the loud, dangerous and expensive observances of the past.

The enthusiastic support and attendance at the evening get-together recalls the bazaar of last year. We understand plans are in the making for a second bazaar. In a few weeks, details of which will be outlined soon, we hope.

Why not have signs to show the location of Thurston Field? This baseball park, which was revived last year and improved this spring is growing in popularity. Probably visiting teams and their followers would appreciate directional labels. The ski tow's location is still indicated on Main Street although activity there slumped some time ago.

developed one of the greatest propaganda machines that I think modern civilization has ever known. It is clear that Mr. Hoover regards the Communists and fellow-travelers as an exceedingly grave menace to our security. And no man is in a better position to know

THE COUNTRY PRESS SAYS

Baltimore, Md., Daily Record: "We are inclined to believe that business executives may well consider going actively into politics themselves as a matter of self-preservation."

Bozeman, Montana, Chronicle: "This editor is probably off-side in making any inquiry regarding the billions of I. O. U.'s now piling up in the treasury department at Washington. As long as no one in Washington seems to pay any attention to the growing depth of moneyless paper, this editor is probably unnecessarily disturbed."

Jefferson, Ohio, Gazette: "No one has any moral right anywhere or at any time to keep others from working."

Santa Fe, N. M., New Mexican: "The continuing growth of the vast power of the President in granting benefits to large groups of voters makes it possible for the President to perpetuate himself in office—not by meritorious service but by patronage and favor."

Clarlin, Kansas, Clarion: "Payments of Social Security Old Age benefits . . . are not being paid out of the money that was paid into the government treasury in payroll taxes. That money is gone—used up by the federal spenders. All that represents it is government bonds issued for the social security money."

By which the government has borrowed. Interest on these bonds is used to pay social security benefits and this interest is paid by taxpayers, in addition to the money they have already paid in as a payroll tax."

Goldbeach, Oregon, Reporter: "During the last 100 years the per capita debt of the people of the United States has been multiplied 600 times in size. In the year 1850, the public debt was \$2.77 per person. The Treasury Department reported in February this year that the debt now amounts to \$1,098.00 for each man, woman and child in the United States. (About \$6,800 for the average family)."
